January 2019

Dear Parent or Guardian,

When your child's report card is available to view so is your child's progress toward their IEP goals and objectives. You can view your child's goals and objectives in Genesis by following the directions below.

1. Log into Genesis
2. Ensure you are in the "Student Data" tab in the upper right hand corner
3. Click on the "Documents" tab in the toolbar below the Student Data tab
4. **If you have multiple children in the district, go to the upper right-hand corner identify the student that receives special education and/or related services**
5. In the middle of the page, a hyperlink called "SPEDPROG" should appear. Click on the link to view your child's monitored goals and objectives.

If the hyperlink does not appear or you have any questions or concerns, please contact your case manager.

**Please remember goals and objectives are developed for students who have an individualized education plan (IEP). If your child does not receive special education and/or related services, there will be no goals and objectives for you to view.*

Sincerely,

Georgianna Petillo
