Dear Parents/Guardians:

As you are well aware, the district's state aid was reduced by approximately 1.6 million dollars for the 2019-2020 academic year and we are anticipating larger reductions in the near future. It was decided as part of this year's budget that the majority of extracurricular activities would be assigned a student fee for participation with the intent to cover the personnel cost of the activity. Factors that were considered in the establishment of the fees were the number of students involved in the activity, the type of activity and its relationship to academics. For those activities that have tryouts*, the student is only responsible for the fee upon selection for the activity.

The student activity fees for the 2019-2020 academic years are as follows:
