April 21, 2021

Dear Manalapan-Englishtown Regional Schools Community Members,

Over the past several years, the MERS staff has worked together under Dr. Marciante's guidance to ensure we have one of the best school districts in the state. Our mission has been to make certain all students in our towns receive the highest level of education in a safe, supportive learning environment.

At last night's meeting, the MERS Board of Education approved me as the next Superintendent of Schools. I am honored that I was chosen to succeed Dr. Marciante on July 1st.

Over the last five years as Assistant Superintendent of Curriculum and Human Resources, I have had the privilege to collaborate with all members of the MERS community. As Superintendent, I will work with stakeholders to ensure the district continues to:

- reach and exceed high levels of education and academic achievement;
- provide students with a safe, technologically-advanced learning environment; and
- provide a positive and healthy work and learning environment for both staff and students.

I look forward to finishing this year in my current role and beginning the new school year as Superintendent. If you have any questions or anything you would like to discuss, please do not hesitate to contact me.

Thank you,

Nicole Santora, Ed.D.
