

**Welcome Theta Class of 2025!**  
**UPDATED WITH SUPPLY LIST BELOW**

Dear Students and Families:

The Theta teachers would like to take this opportunity to welcome you to an exciting year in our community. As educators, we are committed to providing all students with a positive academic setting that is conducive to student learning and growth.

We believe that eighth grade serves as a bridge between primary and secondary education. As a result, it is imperative that students take advantage of the middle school environment to prepare them for the responsibilities of high school.

Our primary goal is to ensure a successful year for everyone. The Theta community would like to focus on fostering and nurturing the concepts of **Respect** and **Responsibility**. For example, when absent, responsible students should review the information posted on their teachers' Google classrooms to obtain the assignments for the day. We look forward to a working partnership between parents and teachers, to encourage and reinforce these attributes which will strengthen the students' success.

The Theta teachers also recognize that without established rules and procedures, the teaching-learning process will not succeed. Thus, to avoid any misunderstandings as the year progresses, we have developed a set of rules and disciplinary procedures that we feel will support a quality academic setting.

Have your student join the [Theta Community Google Classroom](#) for community information and **supply lists**. Please also acknowledge the necessary required forms posted prior to the first day of school.

[Google Classroom Code](#) - **3csinhw** - **ONLY STUDENTS SHOULD JOIN.**

We are excited at the prospect of a new school year and look forward to meeting you!

Professionally yours,

*Theta Classroom Teachers*

Melissa Harris	Language Arts	Connor Doyle	Science
Donna Duffy	Language Arts	Jim Tumbleson	Social Studies
Jen Ward	Mathematics	Scott Roskos	Resource
Jackie McCabe	Mathematics	Corinne Moorefield	Resource
