

7+ Hour S.T.E.M Crime Scene Class for Students

If you love CSI and forensics, this online STEM camp is for you! Taught by current and former detectives (how cool is that!), this one week class is packed with hands-on activities to learn what it takes to become a crime scene investigator, taking about 90 minutes per day.

Solve a missing persons case, create and examine blood splatter patterns, analyze handwriting with chromatography, practice interrogation techniques, make a magnifying glass, and much more!

Ideal for students in grades 6 to 12 with an interest in science, and forensics and Detective work.

Each class is capped at 25 ensuring plenty of guidance and mentorship from CSI professionals - build your STEM skills and connections needed to succeed in the field.

Plus all students in the virtual camp will receive a CSI Lab Kit brimming with SWAG.
