

Annual Integrated Pest Management Notice For School Year 2018-2019

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. The Manalapan-Englishtown School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the schools IPM Policy included with this notice.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for Manalapan-Englishtown School District is:

Name of IPM Coordinators: Camille Robinson
Vincent J. Pietrucha

Business Phone number: 732-786-2500

Business Address: 54 N. Main Street, Englishtown, NJ 07726

The IPM Coordinator maintains the pesticide product label, and the Safety Data Sheet (SDS) (when one is available), of each pesticide product that may be used on school property. The label and the SDS are available for review by a parent, guardian, staff member, or student attending the school. Also, the IPM Coordinator is available to parents, guardians, and staff members for information and to discuss comments about IPM activities and pesticide use at the school. A meeting regarding the School Integrated Pest Management Program will be incorporated into the Thursday, September 19, 2019 PTA Meeting scheduled for 9:30 AM.

As part of a school pest management plan Manalapan-Englishtown Wemrock Brook School may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following pesticides have been used at this location in the past 12 months:

Trade Name	Common Name	EPA Registration #
Advion Ant	Indoxacarb	352-668
Dismiss	Sulfentrazone 4F Row Herbicide	279-3295
ProDeuce		228-509
Roundup QuikPRO Herbicide		524-535

The following items must be included with this annual notice:

- **A copy of the school or School District's IPM Policy.**
- **The date, time and place of any meeting if one is to be held for the purpose of adopting or modifying the school Integrated Pest Management Policy or Plan.**
- **A list of pesticides that are in use or that have been used in the past 12 months on school property.**
