September 2018

Dear parent/guardian:

We are offering graphing calculators to all students enrolled Algebra I or Geometry to use for this school year. You have the option to purchase your own, preferably the TI-84 Plus model.

By choosing to obtain a district provided graphing calculator, students are required to treat this device with care. The cost of replacing a lost or broken calculator is \$100.00.

If you prefer to purchase the graphing calculator on your own, please inform your child's math teacher.

We wish your child a successful year in mathematics.

Sincerely,

Greg Schmidt
